A boardwalk/bridge was needed on other side of iron stile as the path becomes impassable after wet weather. It was noted that the Gold standard previously awarded to this path was under threat. - a) details of remaining publications – there are still plenty remaining but may need an addendum.
- b) extension of distribution – it was agreed that a notice advertising the Walks' Booklet would be placed at the Tourist Office in Liskeard, in the Link, and at the Heritage centre and that the clerk would prepare a notice for Cllr Martin to distribute. Cllr Martin suggested that grant funding could be sought for future updates.

8) Correspondence

- a) Cornwall Council (29 Jan 2010) – Local Maintenance Partnership PPIP 2010/11. Concerns were expressed regarding doubt over future funding and consequently how planning expenditure might be undertaken. The committee also felt that the LMP had disregarded its long-standing, tailor-made regime of assessing public rights of way, and contracting work only in areas that required attention. The committee was also dismayed that the LMP seemed to have undertaken its own assessment without consultation with the PRow committee and without taking into account the particular requirements of the PRowS. It was agreed that the clerk would write to the LMP expressing these concerns.
- b) E-mail (26 Jan 2010) from parishioner regarding condition of footpath at Henwood. Cllr Todd explained history, and recounted a discussion he had had with the landowner and with the Henwood Association. The latter is prepared to get a group together to clear mud but are unable to do so until March, at least. It was agreed that the clerk would reply to explain the situation and also to suggest that help would be appreciated.
